

Requirements for the JCU Dive Register.

You must have the following:

- An Australian recognised Occupational diver qualification (AS2815), or internationally recognised dive qualification/s of Divemaster or higher, or a minimum of an AQF Rescue diver (SROSCB007A "Performs Diver Rescues") certification.
- Current first aid (<3 years), CPR (<12 months) and Oxygen Provider (<12 months) certificates that are recognised within the ***Australian Qualification Framework***.
- A Dive Log Book, with dives countersigned, validating a minimum experience of 30+hrs underwater, excluding training dives.
- A dive medical certificate to ***Australian Standard AS 2299 (Occupational Diver)*** (<12months).

The Online Dive Register and Diving Induction:

If you meet all the requirements, you will be asked to sign up to the JCU Boating & Diving Register, where you will upload copies of relevant certificates and documentation. All divers must then attend an induction session which typically includes training in JCU diving procedures, a diving theory assessment and also a diving practical assessment.

Once registered the Diving Officer or delegate may impose restrictions on a diver's activities on the basis of his/her skills or experience.
